

Tentative Agenda

IASST Conference

"Equipping Green Industries with Safety-critical Skills"
18th-19th September, 2024

Venue:

Hotel Park Inn by Radisson Riga Valdemara

Event Summary:

The upcoming event will focus on the green transition across industries - a movement demanding significant changes in workforce skills globally. Beyond technical expertise, this era values behavioural competencies and soft skills highly. In the high-risk landscape, professionals who blend safety-critical skills with adaptive thinking and collaborative abilities stand out.

Event Highlight:

We are delighted to welcome a special guest at the event: Karlis Bardelis. An ex project manager in the field of waste management who at the age of 28 realized that visiting mountains only a couple of times a year just won't do, so he left his job and started a life of adventures and freedom. Now Karlis is the holder of 6 Guinness World Records.

Main topics:

SAFETY LEADERSHIP & CULTURE
BEHAVIOURAL & PSYCHOLOGICAL SAFETY
SAFETY TECH & INNOVATIONS
CAREER AND SKILLS IN SAFETY

Day 1, 18th September, 2024
